## Building Communities Through Arts and Heritage (BCAH)

CCHS has applied for and received generous funding from the Federal Government through its **Building Communities Through Arts and Heritage (BCAH)** program for the past three years. This past and current support is gratefully received.

We have received this grant for three consecutive years and the grant this year, for \$6,000, is the largest received to date.

The Building Communities Through Arts and Heritage Program was created to help Canadians celebrate their community, its past and its present. The Program will increase opportunities, through festivals and other events and activities, for local artists and artisans to be involved in their community and for local groups to commemorate their local history and heritage.
